PROFILE

As an aspiring intern or junior developer. I am confident that my commitment to goal-oriented learning, teamwork, adaptability, and passion for user-centric design make me a valuable addition to any development team. I am eager to contribute my skills, learn from experienced mentors, and work collaboratively on projects that push the boundaries of what technology can achieve.

SKILLS

Technical skills:

- HTML
- CSS
- JavaScript
- React.js

PROJECTS

PORTFOLIO WEBSITE

<https://gigatokhishvili.github.io/port/>

A Personal portfolio website displaying projects I have worked on.

AIRBNB CLONE

<https://airbnb-clone-five-liart.vercel.app/>

Website mirrors an earlier version of Airbnb, featuring data on rooms posted approximately 10 years ago. The information is sourced from an API I discovered while browsing the internet.

CAR RENTAL CLONE

<https://car-rental-swart.vercel.app/>

A car rental website that allows users to rent cars based on their preferences. The website provides an interface for searching, comparing, and reserving cars.

PHOTOGRAPHERS PORTFOLIO

<https://gigatokhishvili.github.io/niniclone/>

A photographers portfolio that uses Firebase as back-end. Working on this project taught me a lot about authentication, uploading, downloading, deleting and editing objects in Firebase.

LANGUAGES

English C1
Russian B1

BACHELOR OF INTERNATIONAL RELATIONS

2020-2024
